THE LAHORE AHMADIYYA ISLAMIC SOCIETY

will continue its over 30-year tradition of hosting an annual convention by offering a special virtual course this year. Although the in-person meeting of friends and family will be missed, we are excited to utilize an online format to bring you an informative and engaging program in the comfort of your own homes.

This year, we will be addressing the widespread allegation that *Hazrat* Mirza Ghulam Ahmad, the Founder of the Ahmadiyya Movement, claimed to be a prophet. Although every member of the Lahore Ahmadiyya *Jamaat* understands the falsity of this notion, responding to arguments and out-of-context quotations presented by those advancing such a claim is not always easy. The program this year will offer strategies to effectively structure the points to be made when engaging in discussions to clarify *Hazrat* Mirza Ghulam Ahmad's claims (and denials).

In addition, we will have a presentation in memory of *Maulana Hafiz* Sher Muhammad (*ra*), the great Lahore Ahmadi missionary who brilliantly presented evidence on *Hazrat* Mirza Ghulam Ahmad's claims in the historic South Africa Case. We will end the program with two presentations contextualizing the true objectives of the Ahmadiyya Movement, an important reminder for all whenever engaging in debating such theological issues.

We hope the presentations will provide you practical tips and important perspectives that may be utilized in your discussions with others on the topic.

We look forward to you joining us for the program (insha Allah)!
